22. Given the current mission, major programs, and major operational objectives of the department/agency/commission/corporation to which you have been nominated, what in your background or employment experience do you believe affirmatively qualifies you for appointment to the position for which you have been nominated, and why do you wish to serve in that position?

I graduated from the Merchant Marine Academy in 1979 and have lived my entire professional life fulfilling the mission of the Academy. I have served as a deck officer and master primarily on tankers in international trade. I have served in a variety of positions in executive management for a major international shipping company. In those capacities, I have done everything contemplated in President Trump's Executive Order on Maritime Strategy and the related Ships for America Act. Therefore, I have deep knowledge of the U.S. maritime industry and the people that work in it. Concurrent with that, I have served in a variety of positions on Navy committees and organizations, hence developing a deep understanding of the relationship between the maritime industry and national and economic security. In those roles I have often conducted studies, participated in war games, and other exercises at both the classified and unclassified level, probing issues such as contested logistics. I have also developed expertise in Arctic security issues, particularly arctic shipping and its relation to national security. I have also developed an expertise in the international security aspects of globalization and globalized supply chains, topics on which I speak often and taught a seminar for the Advanced Maritime Operations Course for Naval Intelligence. My background positions me well to make an immediate impact on the mission of MARAD I believe firmly in our industry and this industry has provided me with great opportunity. I believe it is my obligation to serve if called to pay back for that opportunity. The industry is in desperate need of revitalization, now is the greatest potential for that to happen in generations and the opportunity may never come again. Those factors combined motivate me to want to serve in the capacity of Maritime Administrator, if confirmed, and make a positive contribution to our industry.

23. What do you believe are your responsibilities, if confirmed, to ensure that the department/agency/commission/corporation has proper management and accounting controls, and what experience do you have in managing a large organization?

I have extensive experience leading large organizations, sometimes through difficult transitions such as that facing the Maritime Administration now. During such times especially proper controls, transparency, and clear communication are essential to a successful outcome. The fundamentals of organizational change are-or should be-consistent whether in government or private industry, therefore my past experience in the industry will be directly applicable in successfully leading MARAD should I be confirmed. From my experience as a corporate executive, responsibility for proper management and accounting in the organizations for which I was responsible can be grouped into several overarching areas:

- Remember who I work for and my responsibilities to the owners and other stakeholders. Ensure the assets of the owners (including their reputation and the reputation of the firm) are preserved. Ensure responsibilities to employees and larger society are met.
- ➤ Establish the proper environment Demonstrate ethical behavior, commitment to proper governance, and act with integrity. Ensure roles and responsibilities are clearly defined and accountability for decisions enforced. Establish an environment that promotes transparency and accountability.
- ➤ Design and implement proper internal controls including policies and procedures that are efficient, effective, and routinely tested or audited. Ensure auditors are properly supported in their role and ensure audit or other governance reports are received directly and unfiltered. Establish effective relationships with finance and internal control teams, including regular review of financial statements and ensure understanding of deviations from plan.
- Establish a strong internal and external communication routine with all stakeholders.

Per my resume, I have had several executive leadership positions ashore with Maersk Line Limited (MLL) – the largest US flag shipping company in the country (at the time about 60 ships), including approx. 40% of the tonnage in the Maritime Security Program, including time on the Board of Directors, and a \$1.5B company responsibly for several thousand staff including sea staff. I am presently President of a tanker company after spin off from MLL responsible for 6 ships and full P and L responsibility to the board and roughly 400 staff at sea and afloat.

- 24. What do you believe to be the top three challenges facing the department/agency/commission/corporation, and why?
 - 1. The deterioration of the U.S. maritime industry in terms of U.S. flag shipping and commercial shipbuilding to the point they are now irrelevant as a factor in U.S. economic security and hence incapable of fulfilling any national security mission, including executing the complex logistics mission any conflict with China would require. In addition, the U.S. port system ranks poorly in international standings for port productivity. Lastly the U.S. internal waterway system is in desperate need to upgrade and repair, receiving a C- from the ASCE, and having a \$7.5B backlog in needed repairs in 2025. The internal waterway system is essential to agricultural and manufacturing sectors in the Midwest and a significant failure could have grievous consequences for the national economy.
 - 2. A serious shortage of maritime labor, both seagoing and for shipbuilding and repair. A revitalization of the U.S. maritime industry cannot happen without significant investment in skilled workforce development starting at the high school level. This also include "fixing" the U.S. Merchant Marine Academy, which is in dire need of investment and attention.
 - 3. Lack of a coherent strategy that ties all elements of the maritime industry (the Blue Economy) together as a system, unambiguously and clearly ties the industry and solutions to its challenges to broader national and economic security plans, policies and objectives, and provides for specific actionable programs to remedy the problems stated above with adequate and sustainable sources of funding.

B. POTENTIAL CONFLICTS OF INTEREST

1. Describe all financial arrangements, deferred compensation agreements, and other continuing dealings with business associates, clients, or customers. Please include information related to retirement accounts, such as a 401(k) or pension plan.

My arrangements are fully described in Part 3 of my Public Financial Disclosure Report. A list of these arrangements and agreements is below.

Maersk will accelerate the unlocking of my vested restricted stock units. I will forfeit restricted stock units valued over and above \$10,000 and will be awarded only up to \$10,000 in Maersk stock prior to assuming my position as Administrator, if confirmed. I will divest my interests in Maersk as soon as practicable but not later than 90 days after my confirmation.
- I have a defined contribution plan (401K plan) with US Marine Management. I will continue to participate in this defined contribution plan. The plan's sponsor will not make further contributions after my separation.
- I will receive a severance payment upon my separation from US Marine Management for \$50,000. The amount of the payment is determined at the discretion of the owners and has already been fixed by the company. This payment will be paid to me prior to assuming the duties of the position of Administrator (if confirmed) or I will forfeit it.
