Source: Map generated by CRS on June 27, 2024, using data made available through Congresswoman Doris Matsui, "Matsui Releases New FCC State-by-State Data on Rip and Replace," press release, January 31, 2024, https://matsui.house.gov/media/press-releases/matsui-releases-new-fcc-state-state-data-rip-and-replace-program. The press release indicated that the (undated) data came from the Federal Communications Commission (FCC).

Notes: The number of sites is based on the number of unique locations identified by an applicant for reimbursement. The sites are associated with Priority 1 applications approved by the FCC. A list of approved applicants is available in the Appendix of the FCC Public Notice, "Wireline Competition Bureau Announces the Grant of Applications for the Secure and Trusted Communications Networks Reimbursement Program" (WC Docket No. 18-89), July 18, 2022, https://docs.fcc.gov/public/attachments/DA-22-774A1.pdf.
