

## **Senate Commerce Committee Nominee Questionnaire, 119th Congress**

Instructions for the nominees: The Senate Committee on Commerce, Science, and Transportation (the "Committee") requests that you provide typed answers to each of the following questions. It is also requested that you type the question in full before each response. Do not leave any questions blank. Type "None" or "Not Applicable" if a question does not apply to you. Begin each section (*i.e.*, "A", "B", etc.) on a new sheet of paper. Electronically submit your completed questionnaire to the Committee in PDF format and ensure that sections A through E of the completed questionnaire are in a text searchable and that any hyperlinks are active and can be clicked. Section F may be scanned for electronic submission and need not be searchable.

Incomplete questionnaires may delay the nomination process.

21. Please identify each instance in which you have testified orally or in writing before Congress in a governmental or non-governmental capacity and specify the date, committee, and subject matter of each testimony.

None.

22. Given the current mission, major programs, and major operational objectives of the department/agency/commission/corporation to which you have been nominated, what in your background or employment experience do you believe

affirmatively qualifies you for appointment to the position for which you have been nominated, and why do you wish to serve in that position?

I believe many aspects of my background make me qualified to serve as NASA Administrator, and it would be an immense honor to do so. My education, experience as a pilot, time as a commercial astronaut, and work as an entrepreneur together reflect my life-long passions of aviation and spaceflight. Throughout my various endeavors, I have had the opportunity to work with the government as a partner in the private sector. This has provided me with unique insights into how we can improve and innovate NASA's operations. I am committed to NASA's quest to explore space, innovate for humanity, and inspire our Nation through discovery.

As a student, I attended the Embry-Riddle Aeronautical University where I graduated with a bachelor's degree in professional aeronautics.

As a pilot, I have more than 7,700 hours of jet pilot experience and the highest FAA ratings, which include my Airline Transport Pilot certificate with experimental type ratings to operate ex-military aircraft.

As a commercial astronaut, I have spent the last four years helping plan, develop, train, and execute two commercial space missions through the Polaris Program. My crew and I flew farther into space than any other human has since Apollo 17—more than 50 years ago. Aspects of our missions reflect the exciting future of space, such as the testing of new spacesuits during our spacewalk and the use of laser communications to send a message to the world. These efforts renewed excitement about what the future holds for America as a spacefaring Nation, but we also remained dedicated to addressing the hardships and challenges of the world we live in today. In the course of the Polaris missions, we raised over \$250 million for St. Jude Childrens Research hospital, of which I have contributed more than \$125 million directly. My experience as an astronaut and leader for two missions has also given me a profound understanding of the coordination required between NASA, commercial partners, other government agencies, and outside collaborators to achieve mission success.

As an entrepreneur, I have also created a career in business that is directly related to managing a large agency and advancing American aeronautical interests and innovation. I co-founded the world's largest private air force, Draken International, to train pilots for the United States Armed Forces and

its allies. This defense aerospace business, involving high performance military aircraft, saved taxpayers hundreds of millions and enhanced the training of our military warfighters. I am also the founder and CEO of Shift4 Payments, an innovative payment processor company, which I started in my parents' basement when I was 16 years old. Throughout my long business career, I have run my companies efficiently, responsibly, and with thousands of employees.

I hope to have the opportunity to advance the President's goal for America to lead in space, science, technology, and exploration as NASA Administrator.

23. What do you believe are your responsibilities, if confirmed, to ensure that the department/agency/commission/corporation has proper management and accounting controls, and what experience do you have in managing a large organization?

It is imperative that the Administrator of NASA manages the agency responsibly and efficiently to ensure its organizational resources are dedicated to consistently moving the ball forward and advancing our national interests.

As the founder and CEO of two large companies, I am responsible for overseeing large budgets and have navigated complex logistics matters on a daily basis. As the founder and CEO of an aerospace defense contractor under government oversight, and a public company listed on the New York Stock Exchange, I also understand the importance of leading large organizations responsibly with proper governance and accounting controls.

24. What do you believe to be the top three challenges facing the department/agency/commission/corporation, and why?

NASA is the most respected and accomplished space agency in the world. The NASA logo inspires Americans and people the world over to dream of what the future may hold. However, the agency has faced significant challenges over the years that have impeded the mission.

1. NASA has been unable to return to the Moon or have an achievable path to Mars, despite plans to do so as far back as President George H.W. Bush's Administration in 1989.
2. The pace of world changing discoveries has slowed with flagship missions consistently billions over budget and behind schedule.
3. The space economy has yet to be revealed. For over 60 years, the space economy has had the same customers (governments) looking for the same capabilities (communications and observation).

I believe the challenges stem from:

- A distracting number of priorities that are not fully aligned with the NASA mission.
- An organizational structure and policies that fuel bureaucracy and throttle progress.
- A culture that needs to be reinvigorated to make better use of capable commercial industry and to win against geopolitical rivals that are quickly threatening the ever expanding 'high ground'. If we do not lead, we follow, and if we follow, we may never catch-up.

I am committed to working tirelessly alongside some of the brightest minds in the nation to solve the problems and return NASA's focus to executing on the mission.

## **B. POTENTIAL CONFLICTS OF INTEREST**

1. Describe all financial arrangements, deferred compensation agreements, and other continuing dealings with business associates, clients, or customers. Please include information related to retirement accounts, such as a 401(k) or pension plan.

My employment agreements and arrangements are described on my Form 278e Public Financial Disclosure Report, which I am working on with the Office of Government Ethics (OGE) and NASA ethics officials. That form will disclose the following agreements and arrangements:

- 1) A corporation I own has a Tax Receivable Agreement (TRA) with Shift4 Payments, Inc. Under the TRA, Shift4 Payments, Inc. agrees to make payments to the historic equity owners in an amount equal to a percentage of the benefit the corporation derives from certain specific tax attributes, if, as and when realized. Prior to the IPO of Shift4 in 2020, the company operated as a partnership for U.S. Tax purposes. Upon the IPO, an umbrella partnership – C-Corporation structure was established. The operating partnership (Shift4 Payments, LLC) will be modified by reclassifying my interests as an original owner into a new class of interest that is exchangeable for Shift4 common stock (Class A). The TRA requires Shift4 to share tax savings with the original partners.
  - 2) Pursuant to my employment agreement with Shift4 Payments, LLC, for 36 months after resignation, I will be eligible for health insurance benefits and other reimbursed expenses for fees in connection with former employment/ownership. I do not anticipate participating in or accepting such benefits.
  - 3) In February 2025, I anticipate receiving an annual RSU award from Shift4 Payments, Inc. for the 2024 calendar year. RSU grant levels for the Chief Executive Officer are decided in conjunction with the Company's year-end compensation decisions based on individual and Company performance from the prior fiscal year.
2. Do you have any commitments or agreements, formal or informal, to maintain employment, affiliation, or practice with any business, association, or other organization during your appointment? If so, please explain.

An entity I own holds agreements with Space Exploration Technologies Corp. (SpaceX). These include agreements related to two future space flight missions in the Polaris Program. There are three space flight service agreements related to different missions in the Polaris Program.

I am currently working with OGE and NASA ethics officials on addressing these contracts from an ethics and conflicts perspective. I am committed to working with OGE to identify an appropriate way to avoid conflicts of interest related to these contracts and work toward a resolution that, if necessary, will be fully described in my Ethics Agreement letter.

3. Indicate any investments, obligations, liabilities, or other relationships which could involve potential conflicts of interest in the position to which you have been nominated. Explain how you will resolve each potential conflict of interest.

I have equity interest in Shift4 Payments, Inc., a payments company that predominantly serves restaurants, hotels, sports stadiums and theme parks. Shift4 processes some of the payments for SpaceX Starlink internet service, but this represents less than 1/2 of a percent of the company's revenue. I intend to resign from my positions and will continue to work with OGE and NASA ethics officials on how to handle my interest in Shift4.

I own ex-military aircraft that are occasionally used in a charter or lease arrangement by U.S. Government test pilot schools and for R&D testing.

My separate involvement in contracts with SpaceX is described in the previous question.

In all of these matters, I am working with OGE and NASA ethics officials to identify and resolve conflicts in the appropriate time frame. We are working toward an Ethics Agreement letter that will contain my commitments to resolve existing conflicts. As Administrator, I would be committed to full transparency on these issues and I would work closely with the agency's ethics staff and OGE to resolve any potential conflicts that should arise during my tenure.

4. Describe any business relationship, dealing, or financial transaction which you have had during the last ten years, whether for yourself, on behalf of a client, or acting as an agent, that could in any way constitute or result in a possible

conflict of interest in the position to which you have been nominated. Explain how you will resolve each potential conflict of interest.

My involvement in contracts with SpaceX is described in the previous questions. As noted above, I am working with OGE and NASA ethics officials to identify and resolve conflicts in the appropriate time frame. As Administrator, I would be committed to full transparency on these issues and I would work closely with the agency's ethics staff and OGE to resolve any potential conflicts that should arise during my tenure.

5. Identify any other potential conflicts of interest and explain how you will resolve each potential conflict of interest.

None.

6. Describe any activity during the past ten years, including the names of clients represented, in which you have been engaged for the purpose of directly or indirectly influencing the passage, defeat, or modification of any legislation or affecting the administration and execution of law or public policy.

None.

### C. LEGAL MATTERS

1. Have you ever been disciplined or cited for a breach of ethics, professional misconduct, or retaliation by, or been the subject of a complaint to, any court, administrative agency, the Office of Special Counsel, an Inspector General, professional association, disciplinary committee, or other professional group?

No.

If yes:

- a. Provide the name of the court, agency, association, committee, or group;
  - b. Provide the date the citation, disciplinary action, complaint, or personnel action was issued or initiated;
  - c. Describe the citation, disciplinary action, complaint, or personnel action;
  - d. Provide the results of the citation, disciplinary action, complaint, or personnel action.
2. Have you ever been investigated, arrested, charged, or held by any Federal, State, or other law enforcement authority of any Federal, State, county, municipal, or foreign government entity, other than for a minor traffic offense? If so, please explain.

Yes, in February 2010, when returning from a trip to watch the Olympics in Vancouver, I was detained by U.S. Customs and Border Protection on a warrant related to a charge for "drawing and passing checks without sufficient funds," based on a dispute with the Palms Casino Resort in Las Vegas over a travel reimbursement that the resort promised and subsequently failed to honor. The dispute arose the month prior, and I was under the impression the matter was resolved—I was not aware that law enforcement was involved in the matter. As a result, I was very surprised when CBP took action. However, the matter was resolved in less than 24 hours and the charges were dismissed.

I did then and still now disagree with the other party's handling of the matter. I considered civil action against the resort, but opted against it to avoid any further headache.

Following this incident, the Nevada district court sealed all records associated with this incident, stating, "All proceedings recounted in the

sealed records are deemed never to have occurred.” Although it remains sealed, in the interest of full transparency, I have disclosed it here for the Committee’s awareness.

3. Have you or any business or nonprofit of which you are or were an officer ever been involved as a party in an administrative agency proceeding, criminal proceeding, or civil litigation? If so, please explain.

Shift4, the company of which I am currently CEO, and its predecessors and subsidiaries have collectively been in business for over 25 years. The company, which is publicly traded on the NYSE, is infrequently party to lawsuits filed by and against the company. Please see attached for PACER listings of litigation involving Shift4, as well as its predecessors Harbortouch Payments, LLC, and United Bank Card, Inc. Also attached are PACER listings of litigation involving Draken International, the company which I co-founded and for which was previously CEO, but with which I am no longer affiliated. Also attached is a PACER listing of litigation involving me individually.

To the extent the Committee would like additional information on matters listed in the PACER attachments, such as a summary of litigation involving Shift4 over a certain time period, please do not hesitate to ask.

With respect to agency proceedings, Shift4 recently settled a matter with the SEC involving allegations that the company failed to disclose on its annual 10-K forms and/or its proxy statements for FY 2020 through FY 2022 related person transactions for a total of three individuals. This settlement began with outreach from the SEC requesting that Shift4 voluntarily provide documents and information regarding related persons transactions involving immediate family members of Shift4’s officers and directors. Shift4 cooperated with the inquiry, in the course of which we learned that three individuals’ names and compensations were inadvertently left off of SEC-required reports and disclosures. Those disclosures were made as of April of last year.

Shift4 offered to pay \$750,000 to settle the claim. For reference, \$750,000 is about 0.03% of Shift4’s annual revenue for 2023. The settlement order, which states, “In determining to accept the Offer, the [SEC] considered remedial acts promptly undertaken by [Shift4], including making disclosures and improvements to policies and procedures concerning related person

transactions, as well as cooperation afforded the Commission staff,” is available on the SEC’s website here:

<https://www.sec.gov/files/litigation/admin/2025/34-102146.pdf>. SEC Order ¶ 11.

4. Have you ever been convicted (including pleas of guilty or *nolo contendere*) of any criminal violation other than a minor traffic offense? If so, please explain.

No.

5. Have you ever been accused, formally or informally, of sexual assault, sexual harassment, or discrimination on the basis of sex, race, religion, or any other basis? If so, please explain.

No.

6. Please advise the Committee of any additional information, favorable or unfavorable, which you feel should be disclosed in connection with your nomination.

I am a devoted philanthropist and have demonstrated a large financial commitment to various causes throughout my life. Below are details regarding the contributions of \$50,000 or greater I have donated to 501(c)(3) organizations in my personal capacity:

- St. Jude Children’s Research Hospital (2021, 2022, 2023): \$123,351,928
- Renaissance Charitable Foundation, Inc. (2022, 2023, 2024): \$13,150,247
- U.S. Space & Rocket Center Education Foundation (2022, 2023, 2024): \$11,352,879
