AMENDMENT IN THE NATURE OF A SUBSTITUTE intended

Viz:

1 Strike all after the enacting clause and insert the fol-
2 lowing:

3 **SECTION 1. SHORT TITLE.**

4 This Act may be cited as the “Global Investment in
5 American Jobs Act of 2025”.

6 **SEC. 2. DEFINITIONS.**

7 In this Act:

8 (1) **FOREIGN COUNTRY OF CONCERN.**—The
9 term “foreign country of concern” has the meaning
10 given the term in section 9901 of the William M.

1 (Mac) Thornberry National Defense Authorization
2 Act for Fiscal Year 2021 (15 U.S.C. 4651).

3 (2) RESPONSIBLE PRIVATE SECTOR ENTITY.—

4 The term “responsible private sector entity” means
5 an entity that the Secretary determines is—

6 (A) not organized under the laws of a for-
7 eign country of concern; and

8 (B) not owned, controlled, or otherwise
9 subject to the influence of a foreign country of
10 concern.

11 (3) SECRETARY.—The term “Secretary” means
12 the Secretary of Commerce.

13 (4) TRUSTED COUNTRY.—The term “trusted
14 country” means a country that is not a foreign
15 country of concern of the United States.

16 **SEC. 3. SENSE OF CONGRESS.**

17 It is the sense of Congress that—

18 (1) the ability of the United States to attract
19 foreign direct investment from responsible private
20 sector entities based in trusted countries is directly
21 linked to the long-term economic prosperity, global
22 competitiveness, and security of the United States;

23 (2) it is a top national priority to enhance the
24 global competitiveness, economic prosperity, and se-
25 curity of the United States by—

1 (A) removing unnecessary barriers to for-
2 eign direct investment from responsible private
3 sector entities based in trusted countries and
4 the jobs that such investment creates through-
5 out the United States;

6 (B) promoting policies to ensure the
7 United States remains the premier global des-
8 tination to invest, hire, innovate, provide ser-
9 vices, and manufacture products;

10 (C) promoting policies to ensure the
11 United States remains the global leader in de-
12 veloping and deploying cutting-edge tech-
13 nologies, such as self-driving vehicle technology,
14 artificial intelligence, Internet of Things, quan-
15 tum computing, and blockchain; and

16 (D) promoting policies that maintain and
17 expand resilient supply chains and reduce the
18 dependence of the United States on supply
19 chains from foreign countries of concern;

20 (3) maintaining the United States commitment
21 to an open investment policy with private sector en-
22 tities based in trusted countries encourages other
23 countries to reciprocate and enables the United
24 States to open new markets abroad for United
25 States companies and their products;

1 (4) while foreign direct investment by respon-
2 sible private sector entities based in trusted coun-
3 tries can enhance the economic strength of the
4 United States, policies regarding foreign direct in-
5 vestment should reflect security interests;

6 (5) the efforts of the United States to attract
7 foreign direct investment from responsible private
8 sector entities based in trusted countries should be
9 consistent with efforts to maintain and improve the
10 domestic standard of living;

11 (6) as digital information becomes increasingly
12 important to the economy of the United States and
13 the development of new technologies and services
14 that will be crucial to the competitiveness of the
15 United States in the 21st century global economy,
16 barriers, including data localization and infringe-
17 ment of intellectual property rights, must be further
18 addressed; and

19 (7) foreign direct investment by companies or
20 other entities owned, directed, supported, or influ-
21 enced by a foreign country of concern is a threat to
22 the security of the United States and merits an ag-
23 gressive policy framework to protect the interests,
24 jobs, intellectual property, and security of the
25 United States.

1 **SEC. 4. FOREIGN DIRECT INVESTMENT REVIEW.**

2 (a) **IN GENERAL.**—The Secretary and the Comp-
3 troller General of the United States, in consultation with

18 other countries, including forced data localization
19 rules, forced localization of production, industrial
20 subsidies, and the infringement of intellectual prop-
21 erty rights, have on the advanced technology econ-
22 omy of the United States and the ability for firms
23 located in the United States to develop innovative
24 technologies, especially when those policies arise
25 from foreign countries of concern.

1 (13) Other barriers to the ability of the United
2 States to compete globally in an increasingly con-
3 nected and digital global economy, including the use
4 of technical barriers to trade, country-specific stand-
5 ards for technology products, and digital services.

6 (14) The adequacy of efforts by the Federal
7 Government to encourage and facilitate foreign di-
8 rect investment in the United States.
