

Peters-Blackburn 1 (modified)

AMENDMENT NO. _____

Calendar No. _____

Purpose: To require the Director of the National Institute of Standards and Technology to develop guidance for upgrading information systems to post-quantum cryptography.

IN THE SENATE OF THE UNITED STATES—119th Cong., 2d Sess.

S. 3597

To reauthorize the National Quantum Initiative Act, and for other purposes.

Referred to the Committee on _____ and ordered to be printed

Ordered to lie on the table and to be printed

AMENDMENT intended to be proposed by Mr. PETERS (for himself and Mrs. BLACKBURN)

Viz:

1 Strike paragraphs (1) and (2) of subsection (e) of
2 section 201 of the National Quantum Initiative Act (15
3 U.S.C. 8831), as amended by section 12, and insert the
4 following:

5 “(1) DEFINITIONS.—In this subsection:

6 “(A) APPROPRIATE CONGRESSIONAL COM-
7 MITTEES.—The term ‘appropriate congressional
8 committees’ means—

1 “(i) the Committee on Commerce,
2 Science, and Transportation of the Senate;
3 and

4 “(ii) the Committee on Energy and
5 Commerce of the House of Representa-
6 tives.

7 “(B) CLASSICAL COMPUTER; QUANTUM
8 COMPUTER.—The terms ‘classical computer’
9 and ‘quantum computer’ have the meanings
10 given such terms in section 3 of the Quantum
11 Computing Cybersecurity Preparedness Act
12 (Public Law 117–260; 6 U.S.C. 1526 note).

13 “(C) CRITICAL INFRASTRUCTURE SEC-
14 TORS.—The term ‘critical infrastructure sec-
15 tors’ means the critical infrastructure sectors
16 defined in the National Security Memorandum
17 on ‘Critical Infrastructure Security and Resil-
18 ience’ (NSM–22), dated April 30, 2024.

19 “(D) POST-QUANTUM CRYPTOGRAPHY.—
20 The term ‘post-quantum cryptography’—

21 “(i) means those cryptographic algo-
22 rithms or methods that are assessed not to
23 be specifically vulnerable to attack by ei-
24 ther a quantum computer or classical com-
25 puter; and

1 “(ii) includes—

2 “(I) the lattice-based digital sig-
3 nature algorithm specified in National
4 Institute of Standards and Tech-
5 nology Federal Information Proc-
6 essing Standards Publication 204
7 (dated August 13, 2024; relating to
8 Module-Lattice-Based Digital Signa-
9 ture Standard), or any successor
10 standard;

11 “(II) the module-lattice-based
12 key encapsulation mechanism speci-
13 fied in National Institute of Stand-
14 ards and Technology Federal Infor-
15 mation Processing Standards Publica-
16 tion 203 (dated August 13, 2024; re-
17 lating to Module-Lattice-Based Key-
18 Encapsulation Mechanism Standard),
19 or any successor standard; and

20 “(III) any cryptographic algo-
21 rithm or method implemented in ac-
22 cordance with National Institute of
23 Standards and Technology Federal
24 Information Processing Standard
25 Publication 140-3 (dated March 22,

1 2019; relating to Security Require-
2 ments for Cryptographic Modules), or
3 any successor standard, operating
4 within a zero trust architecture as de-
5 scribed in National Institute of Stand-
6 ards and Technology Special Publica-
7 tion 800–207 (dated August 2020; re-
8 lating to Zero Trust Architecture), or
9 any successor standard.

10 “(E) SECTOR RISK MANAGEMENT AGEN-
11 CY.—The term ‘sector risk management agency’
12 has the meaning given such term in section
13 2200 of the Homeland Security Act of 2002 (6
14 U.S.C. 650).

15 “(2) GUIDANCE ON UPGRADING TO POST-QUAN-
16 TUM CRYPTOGRAPHY.—

17 “(A) IN GENERAL.—Not later than 180
18 days after the date of the enactment of this
19 subsection, the Director of the National Insti-
20 tute of Standards and Technology, in consulta-
21 tion with the Director of the Office of Science
22 and Technology Policy, the Secretary of Home-
23 land Security, and the head of any other agency
24 the Director of the National Institute of Stand-
25 ards and Technology considers appropriate,

1 shall establish guidance for upgrading informa-
2 tion systems to post-quantum cryptography, in-
3 cluding guidance that is specifically tailored for
4 critical infrastructure sectors.

5 “(B) DISSEMINATION OF GUIDANCE.—

6 “(i) IN GENERAL.—The Director of
7 the National Institute of Standards and
8 Technology shall make available to entities
9 in the private sector the guidance estab-
10 lished under subparagraph (A).

11 “(ii) SPECIAL PUBLICATIONS.—The
12 Director may satisfy the requirement
13 under clause (i) through the publication of
14 Special Publications.

15 “(3) STRATEGY FOR FEDERAL AGENCY UP-
16 GRADE TO POST-QUANTUM CRYPTOGRAPHY.—

17 “(A) NATIONAL QUANTUM CYBERSECURITY
18 UPGRADE STRATEGY.—The Secretary of Com-
19 merce, in coordination with the Director of the
20 Office of Science and Technology Policy and in
21 consultation with the Quantum Economic De-
22 velopment Consortium and the head of any
23 other agency the Secretary of Commerce con-
24 siders appropriate, shall develop a National

1 Quantum Cybersecurity Upgrade Strategy that
2 includes the following:

3 “(i) A definition of a cryptographi-
4 cally relevant quantum computer.

5 “(ii) Recommended standards to apply
6 to determine whether a quantum computer
7 meets such definition, including—

8 “(I) the characteristics of such
9 computers; and

10 “(II) the particular point at
11 which such computers are capable of
12 attacking real world systems that clas-
13 sical computers are unable to attack.

14 “(iii) Guidelines for assessing the ur-
15 gency of upgrading to post-quantum cryp-
16 tography for each Federal agency relative
17 to—

18 “(I) the critical functions of each
19 agency; and

20 “(II) the risk each agency faces
21 should a cryptographically relevant
22 quantum computer attack a system
23 operated by the agency.

1 “(iv) Recommended performance
2 measures for upgrading to post-quantum
3 cryptography for the following tasks:

4 “(I) Preparation for upgrading to
5 post-quantum cryptography, includ-
6 ing—

7 “(aa) the adoption of hard-
8 ware integrating quantum-resist-
9 ant cryptographic algorithms;
10 and

11 “(bb) the deployment of
12 software-only post-quantum cryp-
13 tography overlays that meet or
14 exceed security standards set
15 forth in the Federal Information
16 Processing Standards issued by
17 the National Institute of Stand-
18 ards and Technology.

19 “(II) Establishment of a baseline
20 understanding of the data inventory,
21 including through the use of auto-
22 mated tools to identify assets.

23 “(III) Planning and execution of
24 post-quantum cryptographic solutions,
25 including ensuring that data at rest

1 and in motion is subject to appro-
2 priate protections.

3 “(IV) Monitoring and evaluating
4 the success of the upgrade and assess-
5 ing the security of the system.

6 “(v) A plan for implementing the
7 above performance measures, including
8 evaluating and monitoring entities that are
9 at high risk of quantum attacks, including
10 sector risk management agencies.

11 “(B) REPORT TO CONGRESS.—Not later
12 than 360 days after the date of the enactment
13 of this subsection, the Director of the National
14 Institute of Standards and Technology shall
15 submit to the appropriate congressional com-
16 mittees a report that includes the National
17 Quantum Cybersecurity Upgrade Strategy de-
18 veloped under subparagraph (A).

19 “(4) RULE OF CONSTRUCTION.—Nothing in
20 this section may be construed to authorize the devel-
21 opment or implementation of any rulemaking or reg-
22 ulatory action for non-Federal entities.”.
