UNIVERSITY OF CENTRAL FLORIDA

Office of the President
P.O. Box 160002
Orlando, FL 32816-0002

October 29, 2026

Representative Aaron Bean
2459 Rayburn House Office Building
Washington, D.C. 20515

Dear Representative Bean:

I write on behalf of the University of Central Florida to urge your support for the Protect College Sports Act and, critically, to ask the House to pass the Senate-approved legislation without changes.

College athletics has reached a point where continued uncertainty threatens student-athletes, universities, and the future of collegiate sports. NIL, revenue sharing, litigation, state laws, transfers, and conference realignment have created a system in urgent need of clear and consistent national rules.

The Protect College Sports Act provides much-needed stability while protecting NIL opportunities, scholarships, medical benefits, academic opportunities, and Olympic and non-revenue sports. We believe that this certainty is essential to protecting opportunities for student-athletes and planning responsibly for the future.

At this stage, changes by the House could put the entire bill at risk. Any amendment would require further Senate action and could jeopardize the bipartisan agreement that made passage possible. No legislation of this complexity can address every concern, but the consequences of continued inaction are far greater.

I respectfully urge you to support the Protect College Sports Act and pass the Senate bill without amendment.

Thank you for your consideration and your continued support of Florida's universities and student-athletes.

Sincerely,

Alexander N. Cartwright, Ph.D.
President and Professor of Electrical and Computer Engineering

Representative Darren Soto
2353 Rayburn House Office Building
Washington, D.C. 20515

Dear Representative Soto:

I write on behalf of the University of Central Florida to urge your support for the Protect College Sports Act and, critically, to ask the House to pass the Senate-approved legislation without changes.

College athletics has reached a point where continued uncertainty threatens student-athletes, universities, and the future of collegiate sports. NIL, revenue sharing, litigation, state laws, transfers, and conference realignment have created a system in urgent need of clear and consistent national rules.

The Protect College Sports Act provides much-needed stability while protecting NIL opportunities, scholarships, medical benefits, academic opportunities, and Olympic and non-revenue sports. We believe that this certainty is essential to protecting opportunities for student-athletes and planning responsibly for the future.

At this stage, changes by the House could put the entire bill at risk. Any amendment would require further Senate action and could jeopardize the bipartisan agreement that made passage possible. No legislation of this complexity can address every concern, but the consequences of continued inaction are far greater.

I respectfully urge you to support the Protect College Sports Act and pass the Senate bill without amendment.

Thank you for your consideration and your continued support of Florida's universities and student-athletes.

Sincerely,

Alexander N. Cartwright, Ph.D.
President and Professor of Electrical and Computer Engineering

UNIVERSITY OF CENTRAL FLORIDA
